

FF Data Sheet | Silicon Gasket

FWP

The silicone base gasket is designed to sit between the detector base and the ceiling surface, helping to prevent moisture from entering.

It's compatible with all Axis AU detectors, smoke, heat, or multi, and provides a secure seal during installation.

Part Numbers

FWP | Silicon Base Gasket

Key Features

- Prevents dust and dirt from entering the back of the detector
- Provides a seal around the wires to prevent moisture getting into the detector
